

Climate Action Day in Bulgaria - Report

Written by European Center for Quality Ltd.

European Project EGS (Energy-Education-Governance-Schools) joined the Coalition for Action against Climate Changes in Bulgaria in Climate Action Campaign.

On October 24th 110 people with bicycles and dogs held hands and stood in the shape of the number "350" in front of the National Palace of Culture. After the end of the event the organizers invited passers-by, politicians and journalists to a cup of bio-tea and a conversation about the climate changes. The figure of "350" as well as the tea symbolizes the warming up of the planet and the necessity of urgent actions. The picture was taken from the 7th floor of the National Palace of Culture and was uploaded to 350.org.
